

Madrid, July 28, 2022

**SPANISH SECURITIES AND EXCHANGE COMMISSION (CNMV)**

In accordance with article 227 of the Recast Text of the Securities Market Act, MAPFRE S.A. (MAPFRE) hereby gives notice to the Spanish Securities and Exchange Commission of the following

**OTHER RELEVANT INFORMATION**

Please find attached the documentation to be presented to investors in upcoming meetings.

Ángel L. Dávila Bermejo  
General Counsel

## 6M 2022 Results

Analyst & Investor  
presentation  
July 28<sup>th</sup>, 2022

**MAPFRE**

We care about what matters to you

# 2022-24 Strategic Plan on track and commitment to sustainable dividend path

Robust growth trends in main markets with tailwinds from currencies

**PREMIUMS +7.7%\***

IBERIA +2%\*

MAPFRE RE +14%

BRAZIL +19%\*

**Disciplined growth** in profitable lines of business, leveraging **multi-channel approach**

Focus on **organic growth** with extremely **prudent M&A strategy**

Benefitting from diversification and restructuring, focused on profitability

**Resilient profitability** in core operations

High level of **business diversification** with negligible exposure to Ukraine conflict

**Improved combined ratios in General P&C and Life Protection**, mitigating pressure on Motor and Health

Reaching final stages of **restructuring processes**

Executing Motor profitability initiatives across all regions

**Challenging context** > impact from inflation, changes in driving patterns and frequency at pre-Covid levels or even higher

**Tariffs** > rate increases on both new business and renewals

**Cost contention** > especially claims costs (i.e. spare parts and provider network management)

**Strict underwriting measures** > portfolio pruning

Financial strength and flexibility

**Strong Solvency II ratio** (205%) as of **March 2022**

April **Tier 3 issuance** to boost ratio by **over 10 p.p.**, mitigating the **fall in shareholders' equity** in Q2

**High level of liquidity** and comfortable with **current debt levels**

**Prudent approach to investments** > low credit risk and decreasing portfolio duration

\* Adjusted at constant exchange rates and excluding the impact of the multi-year policy in Mexico and the exit of BANKIA Vida in 2021, as applicable

# Key figures > Motor business

## Key figures

	Premiums		Attributable result		Combined Ratio		Δ in insured units
	6M 2021	6M 2022	6M 2021	6M 2022	6M 2021	6M 2022	6M 2022
MAPFRE GROUP	2,701	2,944	129.4	0.1	95.7%	105.1%	+105,000 (+0.9%)
IBERIA	1,115	1,113	62.0	15.9	93.1%	100.1%	+32,953 (+0.5%)
NORTH AMERICA	654	737	37.5	2.9	96.0%	104.2%	+11,174 (+1.4%)
BRAZIL	222	312	3.3	-24.4	102.8%	120.3%	-44,788 (-2.8%)

### IBERIA

- **Tariffs** > increases for new business implemented in Q4 2021 and gradual increase for existing portfolio as of January 1st, 2022
- **Average premium** > stable during 2022 after several years of declines, and evidence of clients adapting covers to mitigate tariff increases
- **Expenses** > reduction especially in claims costs (i.e. active management of spare parts and provider network)
- **Underwriting** > focus on more profitable regions and cancellation of non-performing portfolios (i.e. by vehicle type)

### BRAZIL

- **Tariffs** > multiple increases, but still need to catch up with growing inflation
- **Underwriting** > cancellation of non-performing brokers with higher risk portfolios (i.e. commercial trucks and buses)

### USA

- **Tariffs** > two 3% average increases put through already during 2022, and one additional increase pending approval
- **Expenses** > increasing adjusters on payroll and redirecting more clients to preferred repair shops

## Closing remarks

Geographical and business diversification continue to be a differentiating strength

- Robust growth and resilient profitability in core operations in a difficult market context
- MAPFRE RE with strong contribution to results, despite NatCat impact
- Strong premium performance in LATAM with relevant local currency growth and improved profitability
- Motor profitability plan in place across all geographies

2022-24 Strategic Plan has been launched and is on track

Sustainable dividend path, underpinned by solid financial strength and flexibility

Strong commitment to shareholders and society as a whole

Moving forward with transformation, and reaching final stages of restructuring processes

## Timeline

## What's new?

- Disclosure of new insurance contract figures
- New valuation methods for insurance contract\*
  - Premium Allocation Approach for contracts representing ≈70% of total premiums at 12/31/2021
  - For rest of the contracts: Building Block Approach (≈ 25%) and Variable Fee Approach (≈ 5%)
- Mark to market liabilities: eliminating need for shadow accounting
- Potential losses in assets and liabilities will be brought forward:
  - Fixed income impairment: from incurred to expected loss approach
  - Onerous test for insurance contracts
- “Fair Value with changes in OCI” equity portfolios (PAA): realized capital gains & losses recorded directly in other comprehensive income (OCI), not P&L. These portfolios will not be subject to impairment tests.

*Entry into force of the new standards is expected to have the following implications:*

## Strategy and business management

- Group business strategy should be unaffected
- For management purposes current KPIs will be kept in parallel with new IFRS KPIs for the time being
- No major change expected in underwriting & investment risk appetite
- Investment policy and portfolio mix should remain unchanged (99% of total assets currently pass SPPI test), continuing with active ALM to avoid accounting mismatches
- Equity portfolio could be allocated to “Fair Value with changes in OCI”, balancing appetite for P&L volatility and capital gains

## Implications for capital management

- Dividend upstreaming should not be significantly impacted as they are regulated under local GAAP
- Cash generation and solvency position should not be affected
- No relevant fixed income impairments expected and credit risk exposure will continue to be actively managed

## Annex: IFRS 17 – Valuation approaches

IFRS 17, fulfilling its purpose of homogenizing international insurance accounting practices, includes three valuation approaches for insurance contracts:

### Building Block Approach (BBA)

General Assessment approach /Default approach

The objective of this method is to assess fulfillment cash flows using a dynamic calculation, updating hypotheses with each calculation, and recognizing expected profit from the contract or CSM, through its allocation to P&L as service is provided throughout the coverage period.

This approach comprises:

1. Fulfillment cash flows, which include:
  - Present value of expected future cash inflows and outflows that will arise over the length of the contract;
  - An adjustment to reflect the time value of money and other financial risks, like liquidity and exchange rates
  - An explicit adjustment for non-financial risk
2. Contractual Service Margin (CSM), which will represent unearned profit from contracts. If CSM is negative, the contract will be considered onerous and the balance sheet CSM will be zero, recording the loss in the income statement at the time of inception of the contract, as established by the standard.

### Variable Fee Approach (VFA)

Variation of the default approach (BBA) which is applicable to contracts with significant direct participation features.

### Premium Allocation Approach (PAA)

Simplification of the BBA and can be optionally used for contracts with coverage of one year or less, or in those specific cases in which, although the contract duration is greater than one year, the assessment is not expected to vary materially from the BBA. This approach has similarities with the current Unearned Premium Provision approach.

Based on technically defined directives, MAPFRE believes that, in general, it will assess insurance and reinsurance contracts as follows:

<b>Insurance contracts</b>	
Life and Non-Life lines with duration of <1 year(*)	PAA
Burial line	BBA
Life contracts with duration >1 year	BBA
Contracts with direct participation (Unit Linked and certain life products with profit-sharing)	VFA
<b>Reinsurance contracts</b>	
Ceded	PAA
Accepted	PAA/BBA
Retroceded	BBA

\*Non Life contracts with duration greater than one year but with no material difference from BBA expected will also be measured using PAA

## Annex: IFRS 17&9 – Valuation approaches and impact on asset and liability side

Valuation approach	Type of product	Liability	Asset	Remarks
<b>Building Block Approach (BBA)</b>	Burial	Variations in yield curve (risk-free curve + spread) reflected in OCI	≈100% Fixed Income portfolios measured at FVOCI with recycling in P&L	If durations and yields are matched, there will be no asymmetries or impact in OCI
	Life matched			
	Life Savings w/o PS > 1 year			
<b>Variable Fee Approach (VFA FVTPL)</b>	Unit Linked	Liability measured at FVTPL linked to the performance of underlying assets	Assets measured at FVTPL	No asymmetries or impact in OCI
<b>Variable Fee Approach (VFA disaggregating in OCI)</b>	Life with PS	Variations in yield curve (risk-free curve+spread) are reflected in OCI	Fixed income measured at FVOCI with recycling in P&L	If durations and yields are matched, there will be no asymmetries or impact in OCI
		Variations in Equity and Funds are adjusted by estimating the future PS in P&L	Equity measured at FVTPL	No asymmetries or impact in OCI
			Funds measured at FVTPL	
<b>Premium Allocation Approach (PAA)</b>	Own funds portfolios, Life and Non-Life < 1 year	Risk-free curve discount	Fixed income measured at FVOCI with recycling in P&L	Both the variation in the risk-free curve and the credit spread will be reflected in OCI
			Equity measured at FVOCI without recycling in P&L	No possibility to manage the impact in P&L
			Funds measured at FVTPL	Higher volatility in P&L

PS: Profit sharing

FVTPL: Fair Value through P&L

OCI: Other Comprehensive Income

FVOCI: Fair Value through Other Comprehensive Income

# Terminology

Combined ratio – Non-Life	Expense ratio + Loss ratio
Expense ratio – Non-Life	(Operating expenses, net of reinsurance – other technical revenue + other technical expenses) / Net premiums earned
Loss ratio – Non-Life	(Net claims incurred + variation in other technical reserves + profit sharing and returned premiums) / Net premiums earned
Corporate Areas and Consolidation Adjustments	Includes expenses from Corporate Areas, consolidation adjustments, as well as the result attributable to MAPFRE RE and MAPFRE INTERNACIONAL's non-controlling interests and other concepts
Solvency II ratio	Eligible Own Funds (EOF) / Solvency Capital Requirement (SCR)
ROE (Return on Equity)	(Attributable result for the last twelve months) / (Arithmetic mean of equity attributable to the controlling company at the beginning and closing of the period (twelve months))
Other investments	Includes interest rate swaps, investments in associates, accepted reinsurance deposits and others

Alternative Performance Measures (APM) used in this report correspond to those financial measures that are not defined or detailed within the framework of the applicable financial information. Their definition and calculation can be consulted at the following link:

This document is purely informative. Its content does not constitute, nor can it be interpreted as, an offer or an invitation to sell, exchange or buy, and it is not binding on the issuer in any way. The information about the plans of the Company, its development, its results and its dividends represents a simple forecast whose formulation does not represent a guarantee with respect to the future performance of the Company or the achievement of its targets or estimated results. The recipients of this information must be aware that the preparation of these forecasts is based on assumptions and estimates, which are subject to a high degree of uncertainty, and that, due to multiple factors, future results may differ materially from expected results. Among such factors, the following are worth highlighting: the development of the insurance market and the general economic situation of those countries where the Group operates; circumstances which may affect the competitiveness of insurance products and services; changes in the basis of calculation of mortality and morbidity tables which may affect the insurance activities of the Life and Health segments; frequency and severity of claims covered; effectiveness of the Groups reinsurance policies and fluctuations in the cost and availability of covers offered by third party reinsurers; changes in the legal environment; adverse legal actions; changes in monetary policy; variations in interest rates and exchange rates; fluctuations in liquidity and the value and profitability of assets which make up the investment portfolio; restrictions in the access to third party financing.

MAPFRE S.A. does not undertake to update or revise periodically the content of this document.

Certain numerical figures included in the Investor Presentation have been rounded. Therefore, discrepancies in tables between totals and the sums of the amounts listed may occur due to such rounding.
